

INTERNATIONAL PHD PROGRAM

Friedrich Miescher Institute for Biomedical Research

Cutting-edge research on the molecular and cellular basis of human disease

Applications are invited for internally funded PhD student fellowships at the FMI in Basel, Switzerland. Our research focuses on epigenetics, quantitative biology and neurobiology. We employ state-of-the-art technologies to explore basic molecular mechanisms of cells and organisms in health and disease.

- > EPIGENETICS
- > NEUROBIOLOGY
- > QUANTITATIVE BIOLOGY

Application information:
www.fmi.ch/phd

Application deadline:
November 20, 2017

Next deadline:
May, 2018
